

Feadship Resale announces the sale of *Project 717*

Hoofddorp, 22 September 2025 – Feadship is pleased to announce the successful sale of *Project 717*. Feadship Resale represented the buyer, a long-standing Feadship owner, with Edmiston acting as the seller's representative.

The 49.50-metre, *Project 717* combines an angular, low-profile exterior by Studio De Voogt with an interior defined by serene lines and a contemporary sense of calm. Accommodation is provided for ten guests across five staterooms, including a full-beam owner's stateroom with panoramic views and private study.

Outdoor highlights include a glass-fronted Jacuzzi, fold-down bulwarks that extend the beach club, and a sundeck with bar and barbecue.

This transaction marks another milestone for Feadship Resale, the recently established division dedicated to supporting clients in the purchase and resale of existing Feadships. Following the sales of *ONE* and *Savannah*, the division continues to demonstrate its value as a trusted platform for both buyers and sellers.
