

## A new state of *Utopia*: famed Feadship returns home for refit

**Feadship's dedicated refit division continues to work hard after a successful winter of activity. The fabulous *Faith* has just left the Netherlands for warmer pastures and her place has been taken by the lovely *Utopia*, whose owners fully recognise the exceptional added value of having a Feadship refitted by the craftsmen and engineers who know her best.**

Created as a vision of how a superyacht might look if everything that Feadship had learned to date was assimilated into a single project, the 72-metre *Utopia* made global headlines at the time of her launch in 2004. Loved both by her owners and those who have enjoyed taking her out on charter adventures, *Utopia* has now returned for a third time to the Netherlands for a refit with Feadship.

The previous refit projects were in 2008/2009 and in 2013. These regular upgrades reflect the owners' desire to ensure *Utopia* remains in peak state and the fact that – as one of the most successful charter yachts in the global fleet – she is almost constantly in use. The most important aspects of this latest refit are an all-new paint job for the superstructure, activities in relation to the special 15-year survey from Lloyd's, various technical modifications in the engine room and a spruce-up for the interior. *Utopia* will be delivered back to her owners in better-than-new condition at the end of July.

Another top Feadship to have recently enjoyed the Feadship refit treatment is *Faith*. Launched in 2016 to the client's complete satisfaction, *Faith* came home last winter so that the usual premium warranty service activities could be completed on-site at the yard.

Moreover, the owner incorporated some fresh ideas based on his experiences the summer before. For instance, this stunning 97-metre superyacht now has a second wellness area on the bridge deck and, as *Faith* headed out for the 2018 summer season, Feadship spotters will also notice her smart new walnut-varnished window boxes on the main and bridge decks.
